

Bankruptcy

Bankruptcy is a Federal Law allowing individuals in debt to discharge his or her liabilities and reestablish their credit and financial lives. The three primary Bankruptcy Code sections for consumers are Chapter 7 (Fresh Start/Liquidation), Chapter 13 (Repayment) and Chapter 11. Our goal in representing clients in Bankruptcy cases is to provide the client knowledge of the procedures the law requires and to make certain the client qualifies to seek relief under the Bankruptcy Code. Clients are expected to gather a great deal of information for the attorney. We thoroughly explain what information is needed and ensure the client understands why the information is needed for a bankruptcy filing.

We are a debt relief agency assisting people in filing for relief under the US Bankruptcy Code.
